Cloud7-1

Pillow top

Firmness: Soft

Profile height: 30 cm

Comfort layer: Air foam

Contour layer: Convoluted foam
Latex
High density foam

Support layer: Pocket spring with foam encasement

Perfect sleep

Features

Top fabric

Knitting fabric - breathable and soft comfortable feeling

Air-foam

New technology foam, design: 50kg/m³, most breathable, long-lasting cool and durability

Convuluted foam

Helps to relieve body's pressure points and promotes air circulation. Egg-crate shape foam toppers made to increase air circulation, comfort and support for the body and soften firmer bedding, making it a perfect choice for an existing mattress

Latex

Breathable and resilient material which helps to reduce the heat buildup and conforms to your unique body shape and weight . Anti-bacterial & Anti-mite material

Pocket spring system

High performance independently encased coil system engineered to provide optimal support and silence, and to eliminate motion transfer for an uninterrupted night of sleep

Foam encased edge support system

Helps to provide a supportive seating edge and maximizes the mattress's sleeping surface, prevents the sleeper from falling off

Size

160 x 180 x 30 cm

180 x 200 x 30 cm

Cloud7-3.1

Euro top

Firmness: *Cloud7-3* Medium
Cloud7-3.1 Soft

Profile height: *Cloud7-3* 30 cm
Cloud7-3.1 27 cm

Comfort layer: Soft foam

Contour layer: High density foam

Support layer:

Cloud7-3 Soft 5 zone pocket springs with foam encasement

Cloud7-3.1 AGRO IT spring with foam encasement

Perfect sleep

Features

Top fabric

Knitting fabric - breathable and soft comfortable feeling

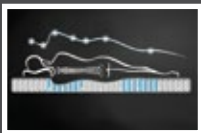

High density foam

Highly durable, provides long lasting support and comfort

Foam encased edge support system

Helps to provide a supportive seating edge and maximizes the mattress's sleeping surface, prevents the sleeper from falling off

5 zone pocket spring system *(only for Cloud7-3)*

This coil system minimizes pressure on the neck, shoulder, lumbar, hips and knees by providing balanced support throughout the night. High performance independently encased coil system engineered to provide optimal support and silence, and to eliminate motion transfer for an uninterrupted night of sleep

AGRO IT pocket spring system *(only for Cloud7-3.1)*

Interactive spring - innovative innerspring system with two different coil types that are vertically staggered for a particularly smooth absorption of the pressure load. Very good body adaption. Specific high point elasticity

Size

180 x 200 x 30 cm

Cloud7-3.1

180 x 200 x 27 cm

Air-1

Euro top

Firmness: Soft

Profile height: 32 cm

Intense fabric: Discharge body static electricity

Comfort layer: Air foam

Contour layer: High density foam

Support layer: Pocket spring with foam encasement

Perfect sleep

Features

Intense knitting fabric

The human body is one big electric field, at night, the body is in constant contact with various materials, such as pajamas, sheets, mattress etc. continually recharged with static electricity – up to 30,000 volts. Not surprisingly, these high voltages have a negative effect on our sleep. We feel nervous, agitated – literally experiencing a feeling of tension.

The Intense mattress uses ultra-fine, multifilament carbon fiber thread. The carbon filament captures the electrons in the surrounding material and releases them into the air at low voltage (from 4,000 volts). So the tension literally flows from the body, allowing for deeper – and more relaxing sleep

Air-foam

New technology foam, design: 50kg/m³, most breathable, long-lasting cool and durability

Pocket spring system

High performance independently encased coil system engineered to provide optimal support and silence, and to eliminate motion transfer for an uninterrupted night of sleep

Foam encased edge support system

Helps to provide a supportive seating edge and maximizes the mattress's sleeping surface, prevents the sleeper from falling off

Size

160 x 200 x 32 cm

180 x 200 x 32 cm

Dream on-35

Soft feeling

Profile height: 35 cm

Topper: Two layers wool cotton
Latex

Contour layer: Two layers wool cotton
Latex

Support layer: Pocket spring

Perfect sleep

Features

Cotton fabric

Eco-friendly fabric, with 50% cotton fiber makes this fabric feeling cool and comfortable. Anti-bacterial material

Wool cotton

Provides a naturally warm sleep environment, moisture feature, prevent itching and irritation on skin, breathable and eco-friendly

Latex

Breathable and resilient material which helps to reduce the heat buildup and conforms to your unique body shape and weight . Anti-bacterial & Anti-mite material

Pocket spring system

High performance independently encased coil system engineered to provide optimal support and silence, and to eliminate motion transfer for an uninterrupted night of sleep

Size

180 x 200 x 35 cm

Midnight-30

Tight top

Firmness: Medium

Profile height: 28 cm

Comfort layer: Gel memory foam

Contour layer: Latex

Support layer: Pocket spring with foam encasement

Perfect sleep

Features

Linen fabric

Eco-friendly fabric, with 30% linen fiber makes this fabric feeling cool and comfortable. Anti-bacterial material

Gel memory foam

Absorbing and evenly distributing your body weight over the entire mattress. Conforms to your body contour without being too hard, always returns to its original shape. The cooling gel infusion that makes it our best foam. The millions of gel beads inside the foam keep the mattress cooler

Convoluted foam

Helps to relieve body's pressure points and promotes air circulation. Egg-crate shape foam toppers made to increase air circulation, comfort and support for the body and soften firmer bedding, making it a perfect choice for an existing mattress

Latex

Breathable and resilient material which helps to reduce the heat buildup and conforms to your unique body shape and weight . Anti-bacterial & Anti-mite material

Pocket spring system

High performance independently encased coil system engineered to provide optimal support and silence, and to eliminate motion transfer for an uninterrupted night of sleep

Foam encased edge support system

Helps to provide a supportive seating edge and maximizes the mattress's sleeping surface, prevents the sleeper from falling off

Size

180 x 200 x 28 cm

Mattress thick quilt pad

MTQ-001

Surface:	100% Polyester 85 gsm micropeach + 200 gsm filling + 20 gsm pp nonwoven quilt
Back:	Degradable TPU membrane
Skirt:	100% Polyester (4 corner elastic band)

Thick quilt mattress pad surface with breathable waterproof backing, provides protection from stains, allergens and dust mites

Features

Maximum waterproof protection

Extra comfort over the mattress,
good water-absorption

TPU backside: waterproof and breathable, anti-dust mites,
physically hypoallergenic

Easy care machine wash and tumble dry

Size

180 x 200 cm
40 cm fitted
4 corner elastic band

Mattress bamboo waterproof protector

MB-001

Surface: 40% Bamboo Viscose,
60% Polyester
(290gsm bamboo jacquard mattress cover)

Skirt: 105 gsm 100% polyester mesh fabric.
Fitted skirt type

Soft bamboo viscose sleep surface
with breathable waterproof
backing, provides protection from
stains, allergens and dust mites

Features

Maximum waterproof protection

Naturally anti-bacterial surface

Soft and silky touching

Good water-absorption

Skin-friendly natural material

Easy care machine wash and
tumble dry

Size

180 x 200 cm
40 cm fitted skirt

Mattress tencel protector

MTC-004

Surface: 45% Tencel Viscose,
60% Polyester
(250 gsm Tencel jacquard mattress cover)

Skirt: 105 gsm 100% polyester mesh fabric.
Fitted skirt type

Tencel mattress cover surface with
breathable waterproof backing,
provides protection from stains,
allergens and dust mites

Features

Maximum waterproof protection

Eucalyptus fiber surface, soft and silky touching

Durable fiber structure

Good water-absorption

Skin-friendly natural material

Easy care machine wash and tumble dry

Size

180 x 200 cm
40 cm fitted skirt

Pillow A-216

Memory foam pillow

Green tea fabric

Memory foam

Special shape

Size: 60 x 40 x 10/11 cm

Weight: 1050 (±30) g

Green tea fabric

- Millions of polymer microcapsules (3-8 microns) wrapped in a very small drop of perfume, the unique process to make these microcapsules adhered to the surface of the fabric firmly and for long time
- Trigger release: the drop of perfume in microcapsules will be released only upon friction and movement, scents stay clean and fresh regulating your mood, to let people feel calm and relaxed

Inner memory foam

has the property of distributing weight across the surface, creating a pressure with less sensation. The special shape of pillow fits your head and neck perfectly, good to sleep well all night

Pillow A-109

Memory foam pillow with gel top

Lavender fabric

**Winter&summer four season pillow
with two covers**

Memory foam

Size: 58 x 38 x 10 cm

Weight: 1000 (±30) g

Lavender fabric

- Millions of polymer microcapsules (3-8 microns) wrapped in a very small drop of perfume, the unique process to make these microcapsules adhered to the surface of the fabric firmly and for long time
- Trigger release: the drop of perfume in microcapsules will be released only upon friction and movement, scents stay clean and fresh regulating your mood, to let people feel calm and relaxed

Inner memory foam

has the property of distributing weight across the surface, creating a pressure with less sensation. The special shape of pillow fits your head and neck perfectly, good to sleep well all night

Gel layer on the top

Keep cool all night. The grains help to massage your head and to fall asleep faster

Pillow Z-926

Latex pillow

Latex pillow

Velvet fabric

Size: 60 x 40 x 12/9 cm

Weight: 800 g

Velvet fabric

Gentle and soft fabric, anti-bacterial material

Inner latex

Breathable material. Naturally hypo-allergenic, doesn't support the growth of dust mites & neutral to most common allergies. Inhibits the growth of bacteria, mold, mildew & fungus. Beneficial to allergy sufferers. Ideal for people who suffer from respiratory problems

Pillow A-221

Memory foam pillow
